Motorcycling is heaven

ENTRY DESCRIPTION

A completely new topic for me: motorcycle fans at the Harley-Davidson meeting at the Henrichshütte in Hattingen. The fun of the people and also the seriousness you can see the participants in very different activities. Nice to see also in the meantime some great women on the driver's seat.

ABOUT THE PHOTOGRAPHER

Every area of photography has its own charm, challenge and time. Exceptional photographic ideas and experiments interest me especially. For me, photography is one thing and image editing another. If both elements fit, it becomes a whole for me; only when both finally harmonize, I am satisfied.

I am particularly interested in architecture at night (when it is also the industrial culture of the Ruhr area, I really flourish); people, at work and in individual action, not staged but natural; nature (especially with the macro); my travels (I like killing two birds with one stone). Oh yes, I also feel magically attracted by colours, which doesn't mean that I haven't already created one or two black-and-white motifs. Well, actually everything that has a story is worth the triggering for me!
